

MOHD ALTAMISH

AI/ML Engineer | Computer Science Student

+91 9084145268 altamish6589@gmail.com Noida, UP, India

LinkedIn GitHub Portfolio Website

Career Objective

First-year B.Tech CSE student at **GL Bajaj Institute of Technology and Management**, Greater Noida (Batch of 2029) with a strong foundation in **Python & Java**, hands-on experience in **Next.js**, and project experience building **AI agents and ML models**. **International Hackathon Winner** — delivered real-world solutions under pressure. Actively sharpening DSA skills through academic projects. Seeking an **internship** in web or software development or AI/ML to contribute and grow.

Education

GL Bajaj Institute of Technology and Management

B.Tech – Computer Science & Engineering

Greater Noida, India

2025 – 2029

Government Polytechnic Lucknow

Lucknow, India

Diploma – Information Technology

2024 – 2025

Shirdi Sai Public School

Moradabad, India

Intermediate – Science

2022 – 2024

Technical Skills

Languages: Python, Java (Basic), JavaScript (Basic)

AI/ML: PyTorch, CNNs, Transformers, Mixture-of-Experts, Multi-Agent AI, LLM Integration (Claude/Anthropic), Prompt Engineering

Tools & Platforms: Git, GitHub, GitLab Duo Agent Platform, Next.js, Streamlit, Gradio, Vercel, Google Cloud, CI/CD

Experience

GitLab AI Hackathon 2026 | *Global – Devpost* | **Winner: Sustainable Design Bonus Prize**

Jan 2026

- Built **Carbon Tracker** – a 3-agent AI pipeline on **GitLab Duo Agent Platform** powered by **Claude (Anthropic)** that auto-measures and reports CO₂ per CI/CD pipeline job on Merge Requests
- Designed a **custom physics-based carbon model** using IEA 2024 energy data; won out of hundreds of global submissions, solo, in 5 days with zero prior GitLab experience

MEDHA 2025 – Medical Device Hackathon (36 hrs) | *GL Bajaj + IIT Bombay*

Oct 2025

- Built **GLB Dental Intellect** – AI-based dental image disease assessment platform with multi-user login and appointment booking; led frontend development and Vercel deployment

ThinkBlitz Ideathon 2025 | *IIIT Delhi*

Oct 2025

- Designed **WakeMate** – real-time AI driver drowsiness detection system; led tech stack selection and device architecture

Projects

Carbon Tracker | *GitLab Duo, Claude (Anthropic), YAML, IEA 2024* |  devpost

Jan 2026

- 3-agent agentic AI system built from scratch; computes per-job CO₂ using a custom energy model – runs on 2 YAML files, no servers or databases; scales to any team instantly
- Quantified that a single flaky test retrying twice at 20 runs/day generates **440 kg CO₂/year**; **Won Sustainable Design Prize**, GitLab AI Hackathon 2026

NeuroScan | *PyTorch, CNNs, Transformers, MoE, Streamlit, Gradio* |   demo

2026

- Built an end-to-end brain tumor MRI classification platform using custom **HybridChimeraAI** architecture (CNN + Transformer + MoE), achieving **96% shielded recovery accuracy** across 4 tumor categories
- Developed a 7-layer adversarial attack engine (**OmniChaos**) simulating real-world scan corruption with domain-matched signal recovery (**VisualHealer** + **FourierHealer**); exposed via REST API, Streamlit, and Gradio

GLB Dental Intellect | *Next.js, JavaScript, Kaggle Dataset, Vercel* |  demo

Oct 2025

- AI dental image analysis platform with role-based access (Patient/Dentist/Admin) and disease assessment model integration

Certifications

Oracle Cloud Infrastructure 2025 Certified DevOps Professional

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Gen AI Academy 2.0 – DevOps & AI/ML Learning Tracks

Achievements

Global Hackathon Winner – GitLab AI Hackathon 2026, Sustainable Design Bonus Prize (Devpost, Jan 2026)

Active participant in national and international hackathons, ideathons, and tech competitions
